PPP through CCC

Public Private Partnership Through Communication, Cooperation, and Collaboration

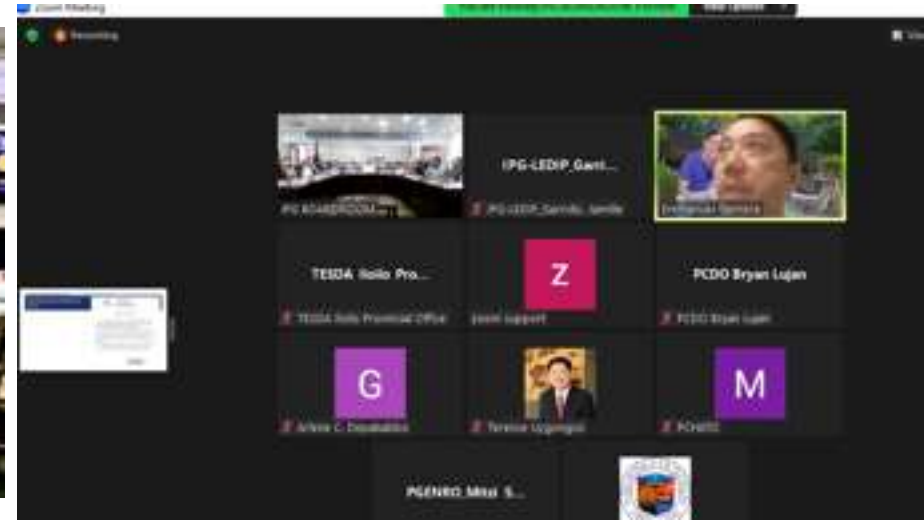

PPP describes a government service or private business venture which is funded, constructed and operated through a partnership between the government and the private sector.

Commercial Venture

- **Communication** ■ The exchange of ideas and information
- **Cooperation** ■ Independent goals with agreements not to interfere with each other.
- **Collaboration** ■ The process of shared creation; collectively creating something new that could not have been created by the individual users.
