

Beyond electrifying logistics, we're enabling a full green eco-system.

"It's not just EVs — Renewable Charging Hubs
& Inclusive Workforce"

Expanding Our EV Fleets

From Light trucks to Heavy trucks

Charging the Future

Building 2 mega-Charging Hubs with PV and BESS to power the chargers.

Strengthening Our Driver Pool & Why Lady Drivers Matter

People are as important as
technology

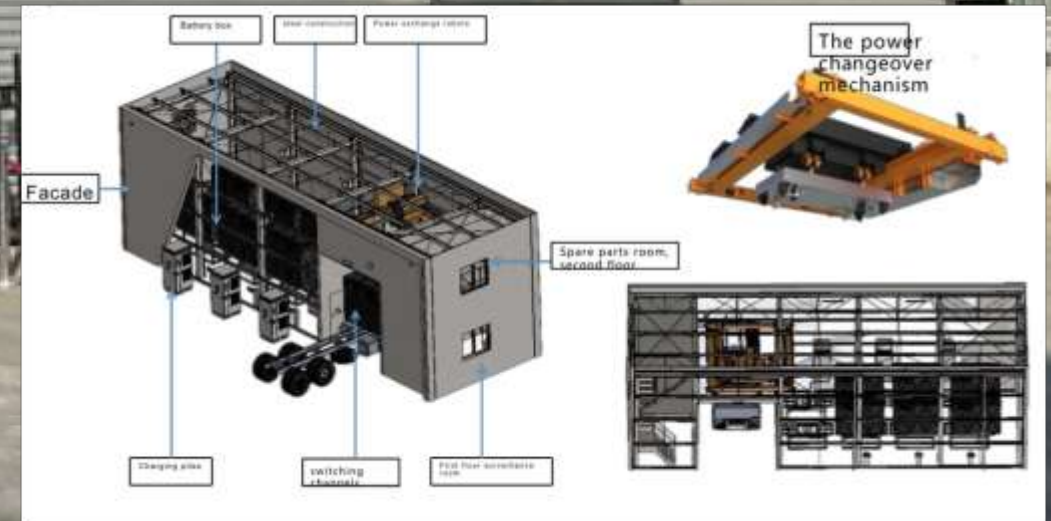

Heavy EV Trucks & Battery Swapping

No downtime,
instant turnaround

Battery Swapping

No downtime,
instant turnaround

The Global Shift to Autonomous EVs

The future is autonomous logistics

The Role of Unmanned EVs in Logistics

- Lower cost per delivery
- 24/7 utilization
- Safer operations
- Drivers redeployed to higher-value roles

Mober's Commitment

Technology + Infrastructure + People

“From Lady Drivers to Autonomous EVs; from Battery Swapping to Renewable Hubs—Mober is not just adapting to the future.”

We are building it.
